HARD SKILLS

- **Back End**
Java,C\C++\C#,Python
- **Front End**
JavaScript, React.js, HTML
CSS, React Native, Flutter
- **Databases**
PostgreSQL, GraphQL,
MongoDB, MSSQL
- **Frameworks**
Node.js, Express.js, Apollo
Sequelize, GCP, AWS
- **Tools & Cloud**
Git, Docker, Redux,
Grafana, Redash, Jenkins,
CircleCi, Jira, pgAdmin
- **Fundamentals**
OOP,Networking
Data Structures,Algorithms
- **Operating Systems**
MacOS, Linux, Windows

SOFT SKILLS

- **Organized & Thorough**
- **Proactive Learner**
- **Adaptable & Multitasker**
- **Feature Ownership**
- **Effective communicator**

LANGUAGES

- **Hebrew**
Native
- **English**
Professional proficiency

OVERVIEW

Experienced Full-Stack Engineer with 4+ years of building scalable, robust, and high-performance software solutions using Node.js, React, Docker, PostgreSQL, Apollo, cloud platforms (AWS, GCP), and more.

Proven record of delivering large-scale features and optimizing performance across distributed systems, with hands-on experience leading development from planning to production while collaborating with global cross-functional teams and demonstrating excellent communication skills.

Strong problem-solving skills with a passion for building user-friendly products and leveraging innovative approaches to improve organizational efficiency while quickly adapting to new technologies and environments.

WORK EXPERIENCE

Full-Stack Engineer

Houzz 🏡 | Houzz Pro - Documents Team | 2021 - Present

- **Led the development** of multiple robust, scalable, and technical features and software solutions, ensuring **high-quality performance** and reliability, resulting in **substantial improvements** in functionality and **user adoption**.
 - **Upgraded** existing software systems to **improve performance, maintainability, and scalability**, aligning with evolving business and technical needs.
 - **Managed large-scale projects** and collaborated closely with cross-functional teams to **analyze and derive technical software design** and performance requirements.
 - **Key Features:** Contracts, Automation, Houzz Pro Rebranding.
- 🔗 *Node.js, React, GraphQL, Docker, Apollo, CI/CD, SQL*

Full-Stack Engineer

Yavo 🌿 | 2020 - 2021

- Built and optimized Yavo's medical assistant platform, focusing on **scalable architecture**, real-time data flows, and **enhancing deployment efficiency** and system reliability.
- 🔗 *Express.js, React, Firebase, Redux, AWS.*

EDUCATION
